We appreciate that allergens and intolerances are an extremely important issue and this is something we take great care in when it comes to providing our customers with information.

When it comes to products made by our home bakers, there may be a risk of possible cross contamination due to products being prepared in an open environment. Please be assured that we always try to ensure proper labelling and signage is available to warn customers BUT we cannot guarantee the absence of allergens in these products.

Some of our bakes may have been baked in advance, frozen at home and defrosted today. They are safe to eat and best enjoyed today.

Therefore, we advise customers with allergies to avoid all of our home baked products.
